Brief description: The American Heart Association is pleased to provide this collection of resources, targeted to Heartsaver instructors but for use by any BLS instructor, at a greatly reduced cost. This shrink-wrapped collection of instructor manuals includes:

- the *Instructor's Manual: Basic Life Support* (70-2048)
- the completely revised *Instructor's Manual: Heartsaver AED* (70-2263), including a new education paradigm on how to teach the adult and pediatric sections of the Heartsaver AED Course to lay rescuers, and a set of scenario cards
- the *Instructor's Manual: Heartsaver First Aid* (70-2563), including practice session cards and the instructor CD with additional teaching material to assist with provider course and instructor orientation

This collection of instructor manuals provides the Heartsaver instructor with all the information needed to teach the Heartsaver Courses.

Purpose: Primarily for use by new Heartsaver instructors, but useful to any BLS instructor.

Date available at distributors: May 28, 2004
